- ✓ Embryo freezing and storage for up to one year

Egg Collection/Embryo Transfers

- ✓ Egg retrieval procedure including sedation and guided ultrasound
- ✓ All available embryo transfers (fresh and frozen)

Other

- ✓ Pregnancy scan or follow up consultation depending on outcome

Our Multi Cycle Plans - with and without refunds

Standard Multi Cycle Plan

Up to two cycles of IVF or ICSI treatment

Unlimited embryo transfers

Freezing and storage of embryos for up to one year

The plan offers a significantly discounted rate in comparison with paying the clinic directly per cycle

Available to women 44 years and under

Multi Cycle PLUS 2 Plan

Up to two cycles of IVF or ICSI treatment

Unlimited embryo transfers

Freezing and storage of embryos for up to one year

20% of your plan fee back, if you have a live birth from your 1st transfer in your 1st cycle, or 10% back if you achieve a live birth following transfer 2 of your first cycle

Available to women 44 years and under

Multi Cycle PLUS 3 Plan

Up to three cycles of IVF or ICSI treatment

Unlimited embryo transfers

Freezing and storage of embryos for up to one year

20% of plan fee back if you achieve a live birth at any point during your 1st cycle or if you achieve a live birth during your second cycle of treatment, you would receive 10% of your money back.

Available to women 44 years and under

Please note, multi cycle plans do not include consultations, screening and medication, these would be paid by yourself directly to the clinic. The clinic or ourselves will happily provide you with estimates of these costs.

If at any point under the plan you achieve a live birth, your plan will be complete and you will not be entitled to any further treatment.
